AUTHORIZED FEDERAL SUPPLY SCHEDULE PRICE LIST

Online access to contract ordering information, terms and conditions, pricing, and the option to create an electronic delivery order are available through GSA Advantage!®. The website for GSA Advantage!® is: https://www.GSAAdvantage.gov.

SCHEDULE TITLE: **Multiple Award Schedule (MAS)**

Large Category:	Information Technology
Subcategory:	IT Hardware
	PSC 7B22 **-** It And Telecom - Compute: Servers (Hardware And Perpetual License Software)
	PSC: 7010 – Information Technology Equipment System Configuration
	PSC: J070 – Maintenance / Repair / Rebuild Of Equipment
Subcategory:	IT Services
	PSC: D399 - IT And Telecom- Other IT And Telecommunications
Subcategory:	IT Software
	PSC: J070 – Maintenance / Repair / Rebuild of Equipment
	PSC: 7030 - Information Technology Software
Subcategory:	IT Training
	PSC: U012 **–** Education / Training- Information Technology / Telecommunications Training

CONTRACT NUMBER: **47QTCA22D0036**

MODIFICATION CURRENT THROUGH: MOD PS-0024, June 3, 2025

CONTRACT PERIOD: **January 13, 2022 to January 12, 2027**

PRICE LIST SUPPLEMENT NO: Revision 11, June 3, 2025

*Prices Shown Herein are Net (Discounts Deducted)

CONTRACTOR: Siemens Government Technologies, Inc.
1881 Campus Commons Drive, Suite 200
Reston, VA 20191
Tel: (703) 483-2000

CUSTOMER INFORMATION:

1a.   AWARDED SPECIAL ITEM NUMBERS (SINs)

SIN	SIN Title
33411 [1]	Purchasing of new electronic equipment
811212 [1]	Maintenance of Equipment, Repair Services and/or Repair / Spare Parts
54151S [1]	Information Technology Professional Services
54151 [1]	Software Maintenance Services
511210 [1]	Software Licenses
611420 [1]	Information Technology Training

[1] Cooperative Purchasing (STLOC) Available

1b.   LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN:
(Government net price based on a unit of one)

SIN	Part Number	Price
33411	SC-XS-PA8	$ 42.32
811212	N/A – No Current Product Offerings under this SIN	N/A – No Current Product Offerings under this SIN
54151S	LMSINST-T	$ 660.16
54151	TC10202-M	$ 11.66
511210	TC050422-s	$ 6.77
611420	TR2101-CLD	$ 39.90

1c.   HOURLY RATES (Services only):

See page 6

2.   MAXIMUM ORDER*:

SIN	Maximum Order Limit
33411	$500,000
811212	$500,000
54151S	$500,000
54151	$500,000
511210	$500,000
611420	$250,000

NOTE TO ORDERING ACTIVITIES: *If the best value selection places your order over the Maximum Order identified in this catalog/pricelist, you have an opportunity to obtain a better schedule contract price. Before placing your order, contact the aforementioned contactor for a better price. The contractor may (1) offer a new price for this requirement (2) offer the lowest price available under this

contract or (3) decline the order. A delivery   order that exceeds the maximum order may be placed under the schedule contract in accordance with FAR 8.404.

3.   **MINIMUM ORDER:** $100.

22a.   **SPECIAL ATTRIBUTES:** N/A

22b.   **Section 508 Compliance: Section 508 compliance information is available for the Information and communication technology (ICT) products and services offered. ICT supplies and services can be found at https://www.sw.siemens.com/en-US/508-accessibility-compliance/ . The ICT accessibility standards can be found at: www.Section508.gov/.** N/A

23.   **UNIQUE ENTITY IDENTIFIER (UEI) NUMBER:** R2VGJTEMCNL5

24.   **NOTIFICATION REGARDING REGISTRATION IN SYSTEM FOR AWARD MANAGEMENT (SAM) DATABASE:** Contractor has an Active Registration in the SAM database. CAGE CODE 0DZG1

CATEGORY SPECIFIC GUIDANCE AND ADDENDUMS:

CATEGORY F: INFORMATION TECHNOLOGY

F02. IT HARDWARE SUBCATEGORY
PSC Code: 7B22 - It and Telecom - Compute: Servers (Hardware And Perpetual License Software)
PSC: 7010 – Information Technology Equipment System Configuration
PSC: J070 – Maintenance / Repair / Rebuild Of Equipment

Offerors shall include as an attachment in the GSA Price List (I-FSS-600 CONTRACT PRICE LISTS (OCT 2016):
- if the equipment is self-installable; and/or
- If the equipment is not self-installable, include any fees for installation, training, or maintenance

SIN 33411 - Purchasing of New Equipment
33411 Includes desktop, laptop, tablet computers (including rugged), servers, storage equipment, hyperconverged integrated systems, supercomputers, routers, switches and other communications equipment, IT security equipment (hardware based firewalls), audio and video (AV) equipment, public address systems, monitors / displays, sensors and other Internet of Things (IOT) devices, printers and Multi-Function Device (MFD) equipment, broadcast band radio, two-way radio (LMR), microwave radio equipment, satellite communications equipment, radio transmitters / receivers (airborne), radio navigation equipment / antennas, optical / imaging systems, and associated peripherals required for operations (such as controllers, connectors, cables, drivers, adapters, etc., ancillary installation of any equipment purchased.

NOTE: Subject to Cooperative Purchasing.

SIN 811212 - Computer and Office Machine Repair and Maintenance
811212 Maintenance, Repair, Service, and Repair Parts / Spare Parts for Government-Owned General Purpose Commercial Information Technology Equipment, Radio / Telephone Equipment. (After Expiration of Guarantee / Warranty Provisions and / or When Required Service Is Not Covered by Guarantee /

Warranty Provisions) and for Leased Equipment.

NOTE: Subject to Cooperative Purchasing

The terms and conditions for each repair and/or maintenance terms offered shall be attached to the GSA Price List (I-FSS-600 CONTRACT PRICE LISTS (OCT 2016)).

F03.IT SERVICES SUBCATEGORY
PSC: D399 – IT and Telecom – Other IT and Telecommunications

SIN 54151S - Information Technology Professional Services

54151S IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and design; programming, conversion and implementation support; network services, data/records management, and testing.

NOTE: Subject to Cooperative Purchasing

F04.IT SOFTWARE SUBCATEGORY
PSC: J070 – Maintenance / Repair / Rebuild of Equipment
PSC: 7030 - Information Technology Software

SIN 511210 - Software Licenses
511210 Includes both term and perpetual software licenses and maintenance. Includes operating system software, application software, EDI translation and mapping software, enabled email message-based applications, Internet software, database management applications, and other software.

NOTE: Subject to Cooperative Purchasing

SIN 54151 - Software Maintenance Services

54151 Software maintenance services creates, designs, implements, and/or integrates customized changes to software that solve one or more problems and is not included with the price of the software. Software maintenance services includes person-to-person communications regardless of the medium used to communicate: telephone support, online technical support, customized support, and/or technical expertise which are charged commercially.

NOTE: Subject to Cooperative Purchasing

F06. IT TRAINING SUBCATEGORY

PSC: U012 – Education / Training- Information Technology / Telecommunications Training

SIN 611420 - Information Technology Training
Any training provided with equipment and/or software provided under this contract, free of charge should be included as an attachment to the GSA Price List (I-FSS-600 CONTRACT PRICE LISTS (OCT 2016).

PRICE LIST – LABOR

Labor Category	GSA Hourly Rate
Associate Consultant	$221.44
Fellow Solution Architect	$365.08

END USER LICENSE AGREEMENT

This End User License Agreement ("**EULA**") and the applicable Supplemental Terms (together, this "**Agreement**") are entered into between Siemens Government Technologies, Inc., ("**SIEMENS**") and the customer, an Ordering Activity (an entity entitled to order under GSA Schedule contracts as defined in GSA Order ADM 4800.2I, as may be revised from time to time), ("**Customer**"). If Customer does not accept this Agreement, Customer must return the Product(s) to SIEMENS or its authorized solution partner prior to installation or use for a refund.

1. **DEFINITIONS**

   "**API**" means application programming interface.

   "**Documentation**" means user documentation provided by SIEMENS for Software, Hardware, or Services, in print, online, embedded as part of a help function, or in license files, "read me" files, header files, or similar files. Documentation includes license specifications, technical specifications, API information, and instructions for use.

   "**Hardware**" means hardware equipment, devices, accessories, and parts delivered by SIEMENS hereunder, including firmware incorporated therein.

   "**Maintenance Services**" means Product maintenance, enhancement, and technical support services provided by SIEMENS.

   "**Order**" means an order form (Order Form), statement of work (SOW), Licensed Software Designation Agreement (LSDA), or similar ordering document that (i) incorporates the terms of this Agreement and sets forth the Products and Services ordered by Customer and any associated fees and (ii) has been agreed by manual or electronic signatures of both parties or agreed through an electronic system specified by SIEMENS. In the electronic system, Customer will be prompted to accept by clicking a button.

   "**Products**" means Software, Hardware, and Documentation.

   "**Professional Services**" means training, consulting, engineering or other professional services provided hereunder by or on behalf of SIEMENS, typically pursuant to a statement of work (SOW).

   "**Services**" means Maintenance Services and Professional Services.

   "**Software**" means software licensed by SIEMENS to Customer hereunder, including updates, modifications, design data, and all copies thereof. Software includes associated APIs, as well as scripts, toolkits, libraries, reference or sample code, and similar materials.

   "**SIEMENS IP**" means all patents, copyrights, trade secrets, and other intellectual property rights in or related to Products or Services.

   "**Supplemental Terms**" means those separate terms and conditions that apply to Products or Services as attached hereto, or otherwise agreed by the parties.

2. **ORDERS**

   2.1 **Ordering Products or Services.** The parties may enter into one or more Orders for Products or Services under this Agreement. Each Order is binding on the parties and is governed by the terms of this EULA and all applicable Supplemental Terms.

   2.2 **Delivery of Software.** Delivery of Software occurs when SIEMENS makes Software available to Customer via electronic download from a website specified by SIEMENS. Physical shipment of the media may be done at SIEMENS's option, as an accommodation to Customer, or because certain elements of the Software are not available for electronic download. Software will be delivered subject to EXW (Incoterms 2020) for deliveries that occur entirely within the United States, Russia, China, or India. All other Software will be delivered subject to DAP (Incoterms 2020).

   2.3 **Payment.** Customer will pay the fees set forth in the applicable Order within 30 days of the invoice date unless otherwise agreed by the parties. Unless specified otherwise in the applicable Order or Schedule contract, fees related to Products and Maintenance Services are invoiced in advance and Professional Services will be invoiced monthly as charges are incurred.

   2.4 **Taxes.** All prices are exclusive of any taxes and any other fee. Customer agrees to pay or reimburse SIEMENS or its authorized solution partner for the payment of any applicable taxes or duties including, but not limited to, sales taxes, value added taxes, goods and services taxes, consumption taxes, or any other fee that is imposed by any government authority on Customer's use of or license to the Products or Customer's receipt of any Services. If Customer is exempt from value-added or sales tax, then it must provide a valid, timely, and executed exemption certificate, direct pay permit, or other such government-approved documentation to SIEMENS or its authorized solution partner. If Customer is required by law to make any income tax deduction or to withhold income tax, after the application of reductions available under international treaties, from any sum payable directly to SIEMENS hereunder, Customer will promptly effect payment thereof to the applicable tax authorities, and will also promptly provide SIEMENS with official tax receipts or other evidence issued by the applicable tax authorities to support a claim for tax credit relief. To the extent permitted by Federal law, Customer is responsible for, and will indemnify SIEMENS for, any taxes, including withholding taxes, resulting from making licenses available to users

in geographic regions outside the country in which Customer is located as per the Order. Nothing contained herein shall be construed to violate the Anti-Deficiency Act, 31 USC 1342(a)(1)(B).

3. SOFTWARE LICENSE AND PRODUCT MAINTENANCE SERVICES TERMS

3.1 License Grant and Conditions.

(a) <u>License Grant</u>. SIEMENS grants Customer a nonexclusive, nontransferable, limited license to install and use Software and related Documentation for Customer's internal business purposes for the time period specified in the Order, and subject to the applicable Supplemental Terms. Software is provided in object code form only, unless otherwise specified in this Agreement. Software is the trade secret of SIEMENS or its licensors. Customer may copy Software only as required to support the authorized use. Each copy must include all notices and legends embedded in Software and affixed to its medium or container as received from SIEMENS. SIEMENS or its licensors retain title to and ownership of Software and SIEMENS IP. SIEMENS reserves all rights in Products and SIEMENS IP not expressly granted herein.

(b) <u>License Compliance</u>. SIEMENS reserves the right to embed a reporting mechanism in Software to determine unauthorized use of licenses. The mechanism does not transmit technical or business data that Customer processes with Software.

(c) <u>Third-Party and Open Source Software</u>. Products may contain third-party technology, including open source software ("**Third-Party Technology**"). Third-Party Technology may be licensed by third parties under separate terms ("**Third-Party Terms**"). Third-Party terms are specified in the Documentation and control solely with respect to Third-Party Technology. If Third-Party Terms require SIEMENS to furnish Third-Party Technology in source code form, SIEMENS will provide it upon written request.

3.2 Maintenance Services Terms. Maintenance Services are governed by the terms found at https://www.plm.automation.siemens.com/global/en/legal/online-terms/mes/index.html .

3.3 Customer Responsibilities.

(a) <u>Transfer and Remarketing of Software.</u> Unless otherwise provided in this Agreement or required to be permitted by applicable law, Customer will not cause or permit the transfer, loan, lease, publication, or use of Software to or for the benefit of any third party without the prior written consent of SIEMENS.

(b) <u>Reverse Engineering, Modification, Use of APIs.</u> Customer will not reverse engineer, decompile, or otherwise attempt to discover the source code of Software. Customer will use Software provided in source code form only to modify or enhance Software for its authorized use. Customer will not otherwise modify, adapt, or merge Software. Customer will not subject Software to any open source software license that conflicts with this Agreement or that does not otherwise apply to such Software. Customer will not use Software for the purpose of developing or enhancing any product that is competitive with Software. Customer will only use APIs identified as published in the Documentation and only as described therein to support the authorized use of Software. The restrictions set out in this Section do not apply to the extent they conflict with mandatory applicable law.

(c) <u>Third Party Hosting of Software; Indemnity.</u> Customer may only engage a third party to host Software ("**Provider**") with SIEMENS's prior written consent. SIEMENS may require a separate written agreement as a condition to such consent. Software hosted by a Provider must remain under Customer's sole control at all times, unless management and operation of Software by the Provider is explicitly approved by SIEMENS, in which case Customer will ensure that the Provider manages and operates Software in conformance with this Agreement and solely for Customer's internal business purposes as permitted herein. If Customer becomes aware of any actual or suspected unauthorized use or disclosure of Software, Customer shall immediately terminate Provider's access to Software. A breach of this Agreement caused by a Provider will constitute a breach by Customer. To the extent permitted by Federal law, Customer will indemnify and hold SIEMENS and its affiliates harmless from all claims, damages, fines, and costs (included attorney's fees and expenses) arising in connection with Customer's use of the Provider's services. Customer will notify SIEMENS if the Provider or its relevant business comes under the control of a third party, in which case SIEMENS may withdraw its prior consent. Nothing contained herein shall be construed to violate the Anti-Deficiency Act, 31 USC 1342(a)(1)(B).

(d) <u>Security</u>. Customer is responsible for the security of Customer's systems and data, including Products on Customer's systems. Customer will take commercially reasonable steps to exclude malware, viruses, spyware, and Trojans.

(e) <u>Third-Party Claims</u>. Customer acknowledges that SIEMENS does not control Customer's processes or the creation, validation, sale, or use of Customer's products. SIEMENS will not be liable for any claim or demand made against Customer by any third party, except for SIEMENS's obligations to indemnify Customer against infringement claims as expressly set forth herein.

(f) <u>Responsibility for Users.</u> Customer is liable for a breach of this Agreement by any user of the Products or Services.

(g) <u>Host Identifier</u>. Customer will provide SIEMENS with sufficient information, including the host identifier for each workstation or server upon which the license management portion of Software will be installed, for SIEMENS to generate a license file enabling Software access per the scope of the licenses granted under each Order.

(h) <u>Audit</u>. Customer will at all times maintain records identifying Software, the location of each copy thereof, and the location and identity of workstations and servers on which Software is installed. SIEMENS may, during regular business hours and upon reasonable advance notice, conduct an audit of Customer's compliance with this Agreement. Customer will permit SIEMENS or its authorized agents to access facilities, workstations, and servers and take all commercially reasonable actions to assist SIEMENS in determining compliance with this Agreement. SIEMENS and its agents will comply with reasonable security regulations while on Customer's premises.

4. WARRANTIES AND DISCLAIMERS

4.1 **Defects.** SIEMENS warrants that, for a period of 90 days following the date Software is initially made available to Customer under an Order, it will provide the material features and functions described in the Documentation. The foregoing warranty excludes (i) Software provided at no charge, (ii) Software provided upon re-mix, (iii) Software that is designated as retired or not generally supported as of the date of the Order, and (iv) deliveries governed by the Maintenance Services terms. SIEMENS's entire liability and Customer's exclusive remedy for a breach of this warranty will be, at SIEMENS's option, to correct or work around errors, or replace defective Software or refund license fees paid for defective Software returned by Customer.

4.2 **Disclaimer.** SIEMENS MAKES NO WARRANTIES EXCEPT FOR THE EXPRESS LIMITED WARRANTIES PROVIDED IN THIS AGREEMENT. REPRESENTATIONS ABOUT PRODUCTS, FUNCTIONALITY, OR SERVICES IN ANY COMMUNICATION WITH CUSTOMER CONSTITUTE TECHNICAL INFORMATION, NOT A WARRANTY OR GUARANTEE. SIEMENS DISCLAIMS ALL OTHER WARRANTIES INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY, AND FITNESS FOR A PARTICULAR PURPOSE. SIEMENS DOES NOT WARRANT THAT THE OPERATION OF THE PRODUCTS OR SERVICES WILL BE UNINTERRUPTED OR ERROR FREE.

5. LIMITATION OF LIABILITY AND INDEMNIFICATION

5.1 **Limitation of Liability.** THE ENTIRE, COLLECTIVE LIABILITY OF SIEMENS, SIEMENS'S AFFILIATES, SIEMENS'S LICENSORS, AND THEIR REPRESENTATIVES, FOR ALL CLAIMS AND DAMAGES RELATED IN ANY WAY TO THIS AGREEMENT, IN THE AGGREGATE AND REGARDLESS OF THE FORM OF ACTION, WILL BE LIMITED TO THE AMOUNT PAID TO SIEMENS FOR THE SOFTWARE LICENSE, HARDWARE, OR SERVICE THAT GAVE RISE TO THE CLAIM. THE FOREGOING LIMITATION DOES NOT APPLY TO SIEMENS'S INDEMNITY OBLIGATION IN SECTION 5.2. IN NO EVENT WILL SIEMENS, SIEMENS'S AFFILIATES, SIEMENS'S LICENSORS, OR THEIR REPRESENTATIVES BE LIABLE FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES, LOSS OF PRODUCTION, INTERRUPTION OF OPERATIONS, OR LOST DATA OR PROFITS, EVEN IF SUCH DAMAGES WERE FORESEEABLE. FOR PRODUCTS AND SERVICES PROVIDED AT NO CHARGE, SIEMENS, SIEMENS'S AFFILIATES, SIEMENS'S LICENSORS, AND THEIR REPRESENTATIVES, SHALL HAVE NO LIABILITY WHATSOEVER. CUSTOMER MAY NOT MAKE A CLAIM UNDER THIS AGREEMENT MORE THAN TWO YEARS AFTER THE EVENT GIVING RISE TO THE CLAIM IS OR SHOULD HAVE BEEN DISCOVERED BY CUSTOMER. This clause shall not impair the U.S Government's right to recover for fraud or crimes arising out of or related to this Contract under any Federal fraud statute, including the False Claims Act, 31 USC 3729-3733. Furthermore, this clause shall not impair nor prejudice the U.S. Government's right to express remedies provided in the GSA Schedule contract (e.g. clause 552.238-75 - Price Reductions, clause 52.212-4)H) - Patent Indemnification, and GSAR 552.215-72 - Price Adjustment - Failure to Provide Accurate Information.

5.2 **Intellectual Property Infringement Indemnity.**

(a) Infringement Claim Indemnity. SIEMENS will indemnify and defend, at its expense, any action brought against Customer to the extent that it is based on a claim that any Product infringes any copyright, any trade secret, or a patent or trademark issued or registered by the United States, Japan, or a member of the European Patent Organization, and will pay all damages finally awarded against Customer by a court of competent jurisdiction or agreed in a settlement, provided that Customer gives SIEMENS (i) prompt written notice of the claim, (ii) all requested information and reasonable assistance related to the claim, and (iii) sole authority to defend or settle the claim. SIEMENS will not admit liability or incur obligations on Customer's behalf without Customer's prior written consent, which shall not be unreasonably withheld. Nothing contained herein shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S. pursuant to is jurisdictional statute 28 USC 516.

(b) Injunction. If a permanent injunction is obtained against Customer's use of a Product, SIEMENS will obtain for Customer the right to continue using the Product or will replace or modify the Product to become non-infringing. If such remedies are not reasonably available, SIEMENS will refund the fees paid for the enjoined Product for the remainder of the license term, or amortized over 60 months from the initial delivery of Hardware or a perpetual license, and accept the return of the Product. SIEMENS may, in its sole discretion, provide the remedies specified in this Section to mitigate infringement prior to the issuance of an injunction.

(c) Exclusions. Notwithstanding anything to the contrary herein, SIEMENS will not have any liability or indemnification obligation to Customer to the extent that an infringement claim arises out of (i) use of a prior version of the Product to the extent that a current version is non-infringing, (ii) failure to use a correction, patch, or new version of the Product offered by SIEMENS that performs substantially the same functions, (iii) use of the Product in combination with software, equipment, data, or products not provided by SIEMENS, (iv) use of a Product provided at no charge (v) use of a Product that is designated as retired or not generally supported as of the date of the Order, (vi) deliverables resulting from Professional Services, (vii) any adjustment, modification, or configuration of a Product not made by SIEMENS, or (viii) instructions, assistance, or specifications provided by Customer.

(d) Sole and Exclusive Remedy. Section 5.2 sets forth the sole and exclusive liability of SIEMENS to Customer for infringement of third-party intellectual property rights.

6. TERMINATION

6.1 **Termination.** Licenses for a limited term terminate upon expiration of the term. Termination of Federal contracts will be in accordance with FAR 52.212-4(l), FAR 52.212-4(m), and GSAR 552.238-73.

6.2 **Effect of Termination.** Upon termination of this Agreement, the licenses granted and Services provided hereunder automatically terminate. Upon termination of any license, Customer will immediately remove and destroy all copies of Software, Documentation, and other SIEMENS Confidential Information, and certify such removal and destruction in writing to SIEMENS. Sections 2.3, 2.4, 4.2, 5.1, 6.2, 7, 8 and 9.8 survive termination of this Agreement.

7. EXPORT COMPLIANCE

7.1 **Export.** SIEMENS's obligations under this Agreement are conditioned upon Customer's compliance with, and Customer agrees to comply with, all applicable export and re-export controls, embargoes, and economic and trade sanctions laws and regulations, including in any event, those of the United States and the European Union ("**Export Laws**"). Customer represents that any Products and Services provided hereunder and any derivatives thereof will not be (i) downloaded or accessed by a Sanctioned Person, (ii) exported, re-exported (including any 'deemed exports'), shipped, distributed, delivered, sold, resold, supplied, or otherwise transferred, directly or indirectly, to any Sanctioned Person or otherwise in a manner contrary to the Export Laws, (iii) used for any purpose prohibited by the Export Laws, or unless expressly authorized by SIEMENS in writing, (iv) used for non-civilian purposes (e.g. armaments, nuclear technology, weapons, any other usage in the field of defense and military). Without limiting the foregoing, Customer represents and warrants that (i) it is not a Sanctioned Person, and (ii) it will not download or otherwise access, or facilitate a third party's download or access of, any Product or Services from a Sanctioned Country. Customer will, at least once per year, review and update its list of users who have access to a Product or Services and confirm that no such user is a Sanctioned Person and that all such users may continue to access Products and Services in compliance with Export Laws. SIEMENS may conduct the necessary Export Laws checks and, upon request, Customer will promptly provide SIEMENS with any necessary information. "**Sanctioned Country**" means a country or territory that is itself the subject or target of any comprehensive trade or economic sanctions (currently Cuba, Iran, North Korea, Syria, and the Crimea region of Ukraine). "**Sanctioned Person**" means any person (i) listed in the Specially Designated Nationals and Blocked Persons List maintained by the U.S. Department of Treasury's Office of Foreign Assets Control or in any Export-Control-Related list of designated persons maintained by the U.S. Department of Commerce, the U.S. Department of State, the United Nations Security Council, the European Union, any Member State of the European Union, or the United Kingdom; (ii) operating, organized, or resident in a Sanctioned Country; (iii) the government of, or acting for or on behalf of the government of, Venezuela or a Sanctioned Country; or (iv) owned or controlled by one or more such persons.

7.2 **Information Disclosure.** If Customer discloses to SIEMENS any information that is (i) Covered Defense Information or Controlled Unclassified Information as defined in U.S. Government regulations or (ii) subject to Export Laws that require controlled data handling, Customer will notify SIEMENS personnel in advance of each instance of disclosure and will use the notification tools and methods specified by SIEMENS.

7.3 **Remedies, Indemnification.** In the event that Customer fails to comply with any provision of Section 7 or violates any Export Laws in connection with Products or Services, SIEMENS will have the right to take action in accordance with the terms of this Agreement and as required by U.S. law or the applicable law. To the extent permitted by Federal law, Customer will indemnify and hold harmless SIEMENS, its affiliates and their representatives against any claims, damages, fines, and costs (including attorney's fees and expenses) relating in any way to Customer's noncompliance with Section 7, including Customer's violation or alleged violation of any Export laws. Nothing contained herein shall be construed to violate the Anti-Deficiency Act, 31 USC 1342(a)(1)(B).

7.4 **Impediments.** SIEMENS will not be obligated to perform under this Agreement if such performance is prevented by any impediments arising out of national or international foreign trade or customs requirements or any embargoes or other sanctions including, but not limited to, embargoes or other sanctions imposed by the United Nations, the European Union, or the United States.

8. CONFIDENTIALITY AND DATA PROTECTION

8.1 **Confidential Information.** "**Confidential Information**" means all information disclosed by one party or any of its affiliates to the other party under this Agreement that is marked as confidential or the confidential nature of which is evident to a reasonable person. SIEMENS Confidential Information includes the terms of this Agreement, Products, Services, SIEMENS IP, and any information Customer derives from benchmarking the Products or Services. The receiving party will (i) not disclose Confidential Information, except on a need-to-know basis to its employees, affiliates' employees, consultants, contractors, and financial, tax and legal advisors; and with respect to the use of Products solely as authorized by the agreed license terms, (ii) use and copy Confidential Information only as required to exercise rights or perform obligations under this Agreement, and (iii) protect Confidential Information from unauthorized use or disclosure. The receiving party (i) will ensure that all its recipients of Confidential Information are bound by confidentiality obligations and use restrictions at least as restrictive as those herein, and (ii) will be liable for compliance with this Section by each of its recipients.

8.2 **Exclusions.** The foregoing confidentiality obligations will not apply to any Confidential Information that (i) is or becomes generally available to the public other than as a result of disclosure by the receiving party in violation of this Agreement; (ii) becomes available to the receiving party from a source other than the disclosing party, provided that the receiving party has no reason to believe that such source is itself bound by a legal, contractual, or fiduciary obligation of confidentiality; (iii) was in the receiving party's possession without an obligation of confidentiality prior to receipt from the disclosing party; (iv) is independently developed by the receiving party without the use of, or reference to, the disclosing party's Confidential Information; or (v) is required to be disclosed by a governmental agency or law, so long as the receiving party promptly provides the disclosing party with written notice of the required disclosure, to the extent such notice is permitted by law, and cooperates with the disclosing party to limit the scope of such disclosure.

8.3 **Data Protection.** When SIEMENS processes personal data on Customer's behalf in connection with Products or Services, the terms set out at https://www.plm.automation.siemens.com/global/en/legal/online-terms/general-data-protection.html apply to the use of such Product and Services. To the extent permitted by Federal law, Customer will indemnify and hold harmless SIEMENS, its affiliates and their representatives from any claims, damages, fines, and costs (including attorney's fees and expenses) relating in any way to Customer's noncompliance with applicable data protection laws. Nothing contained herein shall be construed to violate the Anti-Deficiency Act, 31 USC 1342(a)(1)(B).

9. ADDITIONAL TERMS AND CONDITIONS

9.1 **SIEMENS Affiliates.** Companies directly or indirectly owned or controlled by SIEMENS's ultimate parent company may exercise SIEMENS's rights and fulfill SIEMENS's obligations under this Agreement. SIEMENS remains responsible for its obligations hereunder.

9.2 **Assignment.** This Agreement will extend to and be binding upon the successors and permitted assigns of the parties. However, this Agreement and the licenses granted hereunder may not be assigned, sublicensed, or otherwise transferred (by operation of law or otherwise) by Customer without the prior written consent of SIEMENS.

9.3 **License Rights Applicable to the U.S. Government.** Products and Services are commercial products that were developed exclusively at private expense. If Products or Services are acquired directly or indirectly for use by the U.S. Government, then the parties agree that the Products and Services are considered 'Commercial Items' and 'Commercial Computer Software' or 'Computer Software Documentation', as defined in 48 C.F.R. §2.101 and 48 C.F.R. §252.227-7014(a)(1) and (a)(5), as applicable. Software and Documentation may only be used under the terms and conditions of this Agreement as required by 48 C.F.R. §12.212 and 48 C.F.R. §227.7202. This Agreement constitutes an addendum to a solicitation or contract, as defined in Federal Acquisition Regulation 52.212-4(s). SIEMENS will not be required to obtain a security clearance or otherwise be involved in accessing U.S. Government classified information.

9.4 **Feedback.** If Customer provides any ideas regarding the Products or Services, including suggestions for changes or enhancements, (collectively "**Feedback**") in the course of using or evaluating the Products or Services, Customer agrees that such Feedback may be used by SIEMENS without condition or restriction.

9.5 **Force Majeure.** Neither party will be liable for delay or failure to perform due to any cause beyond its reasonable control, which could not have been prevented by good industry practice, provided the delayed party promptly notifies the other party.

9.6 **Notices.** Notices relating to this Agreement will be in writing and sent to the party's address as specified in the applicable Order. A party may change its address for receipt of notice by delivery of written notice to the other party.

9.7 **Language.** If SIEMENS provides a translation of the English language version of this Agreement, the English language version of this Agreement will control in the event of any conflict.

9.8 **Governing Law and Jurisdiction.** This Agreement shall be subject to Federal law.

9.9 **No Waiver; Validity and Enforceability.** The failure to enforce any provision of this Agreement will not be construed as a waiver of such provision. If any provision of this Agreement is held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions will not be affected, and such provision will be deemed restated to reflect the original intentions of the parties as nearly as possible in accordance with applicable law.

9.10 **Entire Agreement and Order of Precedence.** This Agreement constitutes an addendum to a solicitation or contract, as defined in FAR 52.212-4(s). To the extent this Agreement conflicts with the terms of the schedule contract, the terms of the Schedule contract will prevail. Order of precedence will be determined consistent with FAR 52.212-4(s).

General SISW Maintenance Services Terms

Siemens Industry Software Inc. or one of its Siemens Industry Software affiliated companies ("SISW") and Customer, an Ordering Activity (an entity entitled to order under GSA Schedule contracts as defined in GSA Order ADM 4800.2I, as may be revised from time to time, have entered into an End User License Agreement with Supplemental Terms ("Agreement"). All Maintenance Services under the Agreement are governed by these General SISW Maintenance Services Terms ("General Maintenance Terms"). Applicable product-specific maintenance terms can be found at https://www.plm.automation.siemens.com/global/en/legal/online-terms/mes/index.html. In the event of a conflict, the product-specific maintenance terms will supersede these General Maintenance Terms. SISW may modify all Maintenance Services terms from time to time, provided however that any modifications are effective only upon Customer's renewal of Maintenance Services whether standalone or as part of a Subscription; changes cannot take effect during the then-current period of Maintenance Services without Customer's express agreement. Capitalized terms have the meaning as defined elsewhere in the Agreement.

1. BASIC MAINTENANCE SERVICES. Maintenance Services consist of (a) Software updates, (b) Error corrections (as defined below), and (c) technical support. Perpetual Software licenses do not include Maintenance Services which must be purchased separately. Maintenance Services will be available hereunder to the extent that SISW makes such services available to its customer base in general. Products provided at no fees or that are designated as retired, discontinued, obsolete or legacy on the Order are not covered by any Maintenance Services, unless explicitly provided otherwise on the Order, e.g. by reference to End-of-Life Maintenance Services or Extended Maintenance Services.

2. ADDITIONAL AND OPTIONAL MAINTENANCE SERVICES. For certain Products, additional support levels and services may be available for purchase as specified in the applicable Product Specific Maintenance Services Terms, including enhanced support levels and optional services such as remote support, agent-based diagnosis service or remote monitoring, onsite service, support for prior versions and extended support hours.

3. MAINTENANCE TERM, RENEWALS. Customer may purchase Maintenance Services from SISW for an initial annual maintenance term or other time period specified in the Order Form, unless Maintenance Services are included in the license fee. If Customer purchases additional licenses or Products, SISW may adjust the annual maintenance term and pro-rate the annual fees to be coterminous with the existing maintenance term and billing cycle.

4. NEW RELEASES OF SOFTWARE. New versions of the Software may be either a point release which generally consists of Error corrections ("Point Release"), or a major release which generally is a new version of the Software that contains new or enhanced functionality ("Major Release"). As part of Maintenance Services, Customer will receive new Point Releases and Major Releases as released to SISW's customers in general. This right does not extend to any release, module, option, future product, or any upgrade in functionality or performance of the Software which SISW develops as a customized product for a single customer or that SISW develops and licenses as a separate product. Customer is responsible for the installation and implementation of any new version and any required data conversion. Customer is responsible for the compatibility and configuration of its own equipment and software with the Products, and may purchase additional Maintenance Services packages or separate Professional Services for assistance.

5. MAINTENANCE OF PRIOR VERSIONS OF THE SOFTWARE. Upon a Point Release or Major Release, SISW will maintain the current version and the most current Point Release that relates to the immediately preceding Major Release. If an Error has been corrected in an update to the prior Major Release, SISW may require the Customer to upgrade to the Point Release that contains the Error correction rather than providing a separate patch or workaround.

6. EXTENDED AND END OF LIFE MAINTENANCE SERVICES. At SISW's sole discretion, SISW may substitute products with similar functionality and features for discontinued Software at no additional charge to Customer, or offer Extended or End-of-Life Maintenance Services for certain Products subject to an additional fee. Extended Maintenance Services support Products following the expiration of mainstream support. End-of-Life Maintenance Services support Products that are no longer distributed and supported by SISW generally, and which are not covered by mainstream or Extended Support services.

7. ERROR CORRECTIONS. An Error means the failure of the Product to conform substantially to the Documentation ("Error"). Customer may report any suspected Error to SISW and will provide SISW with a detailed written description and documentation of the suspected Error. Customer will cooperate with SISW's investigation of the reported Error. If SISW finds that the Software contains an Error, SISW will use commercially reasonable efforts to correct the Error through a patch, workaround or via the next Point Release or Major Release of the Software, at the discretion of SISW.

8. TECHNICAL SUPPORT (STANDARD HOURS OF OPERATION). Customer may receive telephone support by calling the support center that supports the specific Product as described on SISW's Support Center found at https://support.sw.siemens.com Support is available during normal business hours, excepting local holidays, for the support center that covers the geographic area in which Customer is authorized to use the Products. If Customer licensed or purchased the Product through an authorized solution partner, Customer may receive first-line telephone support from such partner during the business hours established by the partner, excepting holidays. On the support website, Customer also may log Product support requests, report suspected Errors, monitor progress on requests, download fixes and workarounds, exchange information on a community forum, and access release notes and other Product information. If reasonably requested by SISW, Customer will allow SISW to perform Maintenance Services at Customer's facilities, consistent with all security measures of the Ordering Activity, or via remote screen-sharing technology.

9. TECHNICAL CONTACT. SISW may require Customer to designate one or more employees as the technical contacts for Maintenance Services. The employee(s) will be trained on the applicable Products, and will serve as the primary contact(s) for requesting and receiving Maintenance Services.

10. LIMITATION OF REMEDIES. SISW's responsibility and Customer's remedy (in addition to those available under the Contract Disputes Act) for a failure to correct an Error will be that Customer may terminate Maintenance Services for the Product directly affected by the Error, and receive a pro-rata refund of the fees paid for the remainder of the then-current Maintenance Services term for such Product.

11. INITIAL AND RENEWAL FEES. For direct orders by Customer to SISW, the fees for Maintenance Services will be set forth on the Schedule Price List. Subject to the Schedule contract, SISW may increase its maintenance fees by giving notice to Customer at least sixty (60) days prior to the expiration of the then- current term. Subject to the Schedule contract and applicable task/purchase order, Customer must purchase Maintenance Services for all supported Products used at a single location.

12. THIRD PARTY MATERIALS. SISW only certifies that third-party products furnished by SISW will function in conjunction with the Products in accordance with the Documentation. Any other use of third-party products by Customer, whether as a stand-alone product or with the Products, has not been tested and is not certified by SISW. While SISW may assist Customer with the interoperability of third-party products with the Products, SISW has no obligation to support products acquired from a third party. Customer will ensure that SISW has the rights to use any third-party products or other third-party intellectual property made available to SISW by Customer as necessary for the performance of Maintenance Services.

13. UNSUPPORTED OPERATING ENVIRONMENT. Maintenance Services apply only to the operation of the Products when used according to the Agreement and the applicable Documentation. SISW is not obligated to provide Maintenance Services for Products run on an unsupported platform or Products that have been modified by anyone other than SISW, SISW affiliates or SISW subcontractors at SISW's express direction. Supported configurations and hardware environments are described in the Documentation or can be found at https://support.sw.siemens.com.

14. THIRD-PARTY HOSTING PROVIDERS. If Customer uses an approved third party to host the Software on Customer's behalf, Customer must demonstrate that any reported Errors are not the result of such third party hosting (for example, by reproducing the problem on physical hardware).

15. DATA PROTECTION. SISW processes personal data on Customer's behalf in connection with Maintenance Services and the terms set out at https://www.plm.automation.siemens.com/global/en/legal/online-terms/general-data-protection.html. . To the extent permitted by Federal law, Customer agrees that it will be responsible for damages associated with its noncompliance with applicable data protection laws.

Academic Licenses
Supplemental Terms

These Academic Licenses Supplemental Terms ("Academic Terms") amend the End User License Agreement ("EULA") between Customer, an Ordering Activity (an entity entitled to order under GSA Schedule contracts as defined in GSA Order ADM 4800.2I, as may be revised from time to time, and SISW solely with regard to the Products identified on the Order as "ACAD" ("Academic Products"). These Academic Terms, together with the EULA, Schedule contract, purchase/task order, and other applicable Supplemental Terms form the agreement between the parties ("Agreement"). In the event of a conflict, these Academic Terms supersede any other Supplemental Terms, which supersede the EULA. To the extent this Agreement conflicts with the terms of the Schedule contract, the terms of the Schedule contract will prevail. Order of precedence will be determined consistent with FAR 52.212-4(s).

1. DEFINITIONS. Capitalized terms used herein have the meaning as defined elsewhere in the Agreement. The following additional definitions apply to these Academic Terms.

    (a) "Academic Institution" means a Customer that is an academic institution or other qualifying non-profit organization.

    (b) "Academic License" means a license of Academic Products solely for educational or public research purposes to a Customer that has been identified by SISW as an Academic Institution or Student.

    (c) "Student" means a Customer who is an individual student who has purchased a valid Academic License for purposes of studies directly related to a diploma-seeking program.

2. ACADEMIC LICENSE TERMS. Academic Product licenses also remain subject to all other applicable Supplemental Terms found at https://www.plm.automation.siemens.com/global/en/legal/online-terms/index.html, which are incorporated herein by reference. For Academic Institutions, Authorized Users will also include students enrolled into a diploma-seeking program at the Customer. Additional license and use types may be specified with respect to certain Academic Products as set forth in an Order. Academic Licenses that include SISW's Parasolid or D-Cubed products shall be subject to a separate agreement between the parties.

2.1. Use of Academic Licenses.

    (a) Customer will use the Academic Products solely for purposes directly related to:

        (i) teaching, training, or instructing degree-granting programs;

        (ii) studies and coursework as part of degree-granting programs;

        (iii) research and development activities whereby all end results and research will be made available to the public or published in the public domain; or

        (iv) performance of non-profit activities by Authorized Users, such as participation in student competitions, student projects or student demonstrations.

    (b) Customer may not use Academic Products for (i) any training, or instructional endeavors for non-degree seeking students; (ii) any training or instructional endeavors for any third party that may be a licensee of the applicable Academic Product under separate agreement with SISW; (iii) production or any commercial purpose, including but not limited to, commercial processing, paid-for consulting, or processing the work of any affiliates; (iv) developing software for license or sale; and (v) any benchmarking or competitive analysis against software developed by SISW's competitors.

    (c) Any Customer which is not an Academic Institution but offers apprenticeships to students for the purpose of a diploma-seeking program may submit a request to purchase Academic Licenses from SISW for use by any such students. SISW will at its sole discretion evaluate the request and, if approved, will deem such Customer an Academic Institution solely for the purpose of granting an Academic License for use by such students for the duration of their apprenticeship at that Customer. All other terms and conditions contained in these Academic Terms remain applicable.

2.2. Conditions of Academic License. Customer agrees that (i) Customer will obtain advance written approval from SISW for all documents intended for publication by Customer which concern the capability, functionality and/or methodology of the Academic Product; and (ii) all software programs and associated documentation developed by Customer which interact and/or interface with the Academic Product will be disclosed to SISW. Such programs and documentation will be made available to SISW in source code form upon request. Customer grants to SISW a nonexclusive, transferable, paid-up, royalty free license to use and/or market, distribute and modify any such software program, to the extent that this provision does not conflict with any pre-existing processing grant or contract applicable to such software and documentation. Where such pre-existing Customer grant or contract conflicts with this provision, the pre-existing grant or contract provision will take precedence over this provision, provided that SISW is notified in advance of such grant or contract restriction.

3.	MAINTENANCE SERVICES.	Maintenance	Services	are	governed	by	the	terms	found	at https://www.plm.automation.siemens.com/global/en/legal/online-terms/mes/index.html with the following deviations:

3.1.	Academic Institutions.

(a)	SISW will provide Maintenance Services to Academic Institution, but not individual Authorized Users, between the hours of 8:00 a.m. and 5:00 p.m. in local time zones of the contiguous United States, Monday through Friday, excluding SISW observed holidays. Academic Institution will designate a trained technical contact who will serve as a focal point for administering and resolving all Academic Institution requests for support. The technical contact will use best efforts to solve Academic Institution problems or issues related to the Academic Product prior to contacting SISW for assistance. The technical contact will forward all service requests to SISW and will also serve as the recipient of all on-site Maintenance Services.

(b)	Maintenance Services are provided only for the most current release of the Academic Products and consist of the following: (i) telephone support; (ii) bulletin board service in which Academic Institution may electronically log software support requests and access release notes and software information; and (iii) upgrades to the Academic Products, if and when made available by SISW. Upgrades will not include separate software modules that are available for license at additional charge. Academic Institution will install all software updates within 30 days after receipt thereof, or at the end of Academic Institution current semester, whichever is later.

3.2.	Students. An Academic License is granted to a Student without Maintenance Services of any kind.

4.	WORK PRODUCT AND DATA. Work product and other data created with Academic Products contain certain limitations that make the data unusable outside the educational use or public research area. If Customer combines or links data created with an Academic Product with other data, then such other data may also be affected by these limitations. SISW has no responsibility or liability whatsoever resulting from Customer's combination of data or linking data created with Academic Products with data otherwise created.

5.	PUBLIC INSTITUTIONS. If Customer is an Academic Institution that is a public institution unable to agree to the Governing Law and Jurisdiction provision in the EULA due to mandatory law, the following will apply:

5.1.	Governing Law and Jurisdiction. This Agreement will be governed by Federal law. The United Nations Convention on Contracts for the International Sale of Goods does not apply to this Agreement.

5.2.	Indemnification. Any terms and conditions of the Agreement relating to the Customer's indemnification of other parties will only be binding on the Customer to the extent permitted by the governing law.

COMOS Software
Supplemental Terms

These COMOS Software Supplemental Terms ("COMOS Terms") amend the End User License Agreement ("EULA") between Customer, an Ordering Activity (an entity entitled to order under GSA Schedule contracts as defined in GSA Order ADM 4800.2I, as may be revised from time to time, and SISW solely with regard to the Products identified on the Order as COMOS ("COMOS Software"). These COMOS Terms together with the EULA, Schedule contract, purchase/task order, and other applicable Supplemental Terms form the agreement between the parties ("Agreement"). These COMOS Terms also contain some provisions which apply exclusively to COMOS-Bentley Software, as identified in the respective Order.

1. DEFINITIONS. Capitalized terms used herein have the meaning as defined elsewhere in the Agreement. The following additional definitions apply to these COMOS Terms:

 (a) "Authorized Agents" means individuals who are working on Customer's premises and require access to COMOS Software in support of Customer's internal business as Customer's consultants, agents, or contractors.

 (b) "Authorized Users" means Customer's employees or Authorized Agents.

 (c) "Site" or "Industrial Plant" means a single physical Customer location where the COMOS Software is permitted to be used by Authorized Users.

 (d) "Territory" means the Site(s) or geographic area specified on the Order where Customer is licensed to install and use the COMOS Software. If not specified on the Order nor elsewhere in the Agreement, the Territory shall be the country in which Customer has its principal place of business.

2. LICENSE TYPES. The following license and use types may be offered with respect to individual COMOS Software products. Additional license and use types may be specified with respect to certain products as set forth in an Order. Each license may be used only by Authorized Users for the term as specified in the Order. Unless otherwise specified, Customer may install the COMOS server Software within the Territory on one hardware device per license.

2.1 "Backup" license means a license granted solely to support redundancy on Customer's backup or failsafe installations.

2.2 "COMOS Platform" license means the base license for the minimal functionality of the COMOS Software which a Customer must purchase for the usage of any COMOS Software. A COMOS Platform license is a prerequisite for the purchase of any additional licenses for COMOS Software, but, if specified on the Order, some defined COMOS Software packages may include such COMOS Platform license bundled together with licenses for other modules.

2.3 "Floating" or "Concurrent User" license means that access to the COMOS Software at any given moment is limited to the maximum number of Authorized Users indicated on the Order in the Customer's network and within the domain in which the license server is located. Notwithstanding anything to the contrary in the Agreement, Floating licenses permit Authorized Users to access the COMOS Software from outside the Territory through a connection to the Customer's private network within the domain in which the COMOS server Software is located.

2.4 "Named User" license means that access to the COMOS Software license is restricted to named Authorized Users up to the maximum number of Authorized Users indicated on the Order Form. The specified name of the Authorized User may be changed upon payment of an additional fee ("Rename Counter Fee"). Notwithstanding anything to the contrary in the Agreement, Named User licenses permit Authorized Users to access the COMOS Software from outside the Territory through a connection to the Customer's private network within the domain in which the COMOS server Software is located.

2.5 "Node-Locked" license means that the use of the COMOS Software is restricted to a single workstation specified by Customer, and may include a hardware lock device or dongle to manage this restriction. Such hardware lock devices or dongles are mobile, which means they are freely transportable to another workstation within the Territory without issuing a new license file.

2.6 "Per Product" license means that the use of the COMOS Software is restricted to the number of third-party products to which the COMOS Software is interfaced on a one-to-one basis.

2.7 "Per Server" license means that the use of the COMOS Software is restricted to a single, specified server instance.

2.8 "Perpetual" or "Extended" license means a license of the COMOS Software that extends indefinitely. Perpetual licenses do not include Maintenance Services.

2.9 "Rental" license means a license for a limited term of less than one year as identified in the Order. Maintenance Services for a Rental license are included in the Rental license fee.

2.10 "Subscription" means a license for a limited term as identified in an Order. Maintenance Services are included in the Subscription license fee. For multiple-year Subscription terms, SISW may require new license keys to be issued during the term.

2.11 "Test/QA" license means a license granted solely for the support of ongoing installation customization, support and testing, and may not be used in a production environment or for any other purpose.

3. OTHER PROVISIONS.

3.1 Hardware. Hardware delivered with the COMOS Software, such as a dongle, remains the property of SISW if not agreed otherwise in writing.

3.2 Updates. Customer will update the COMOS Software in accordance with the installation rules specified in the Documentation. All notices in the Documentation, or provided separately by SISW, regarding discontinuance of Maintenance Services for older versions of the COMOS Software are binding on Customer.

3.3 Lost or Damaged Protection Devices. New protection devices for existing licenses can only be delivered to the Customer upon return of the damaged protection device (e.g. a dongle). If the protection device is lost, new licenses must be purchased by the Customer unless otherwise specified by SISW. If the Customer subsequently recovers the lost device, the Customer will return it to SISW without undue delay.

3.4 Authorized Use of APIs. Customer is authorized to use any Application Programming Interface ("API") that is identified as a published API in the Documentation to develop software for Customer's internal use and for resale to others under terms and conditions at least as protective as those contained in the Agreement. Customer may not use the APIs to enable unauthorized use of the Software. SISW has no obligations or liability for software developed by Customer using the APIs. Customer is prohibited from using unpublished APIs under any circumstances.

3.5 Additional Licensing Terms. The following additional license restrictions apply to COMOS-Bentley Software:

(a) The license compliance mechanism embedded in the COMOS-Bentley Software reports Customer usage data to determine unauthorized use of the license granted under the Agreement. Such data is accessible to SISW as well as to Bentley Systems Inc. and its affiliated companies.

(b) Customer is only permitted to use the number of licenses ("Instances") of the COMOS-Bentley Software that SISW has licensed to Customer via an Order. Use of additional Instances requires an accepted Order for such Instances.

Hardware
Supplemental Terms

These Hardware Supplemental Terms ("Hardware Terms") amend the End User License Agreement ("EULA") between Customer, an Ordering Activity (an entity entitled to order under GSA Schedule contracts as defined in GSA Order ADM 4800.2I, as may be revised from time to time) and SISW solely with regard to the Products identified on the Order as "HW." These Hardware Terms, together with the EULA and other applicable Supplemental Terms, Schedule contract, and Task order, form the agreement between the parties ("Agreement").

1. DEFINITIONS. Capitalized terms used herein have the meaning as defined elsewhere in the Agreement. The following additional definitions apply to these Hardware Terms:

   (a) "Authorized Agents" means individuals who are working on Customer's premises and require access to SISW Products in support of Customer's internal business as Customer's consultants, agents, or contractors.

   (b) "Authorized Hardware Users" means Customer's employees and Authorized Agents.

   (c) "Delivery" will have the meaning defined in Section 2 of these Hardware Terms.

   (d) "Firmware" means system software (as opposed to application software) included and incorporated into Hardware which provides low-level control of, or a standardized operating environment for, the Hardware in which it is incorporated.

   (e) "Lease" or "Rental" means a grant by SISW of non-transferable, temporary and limited rights to use specific Hardware products within the Territory, including Trial and Loan licenses for Hardware as defined in the Loaned Products Supplemental Terms.

   (f) "Siemens Hardware" is standard Hardware marketed or branded under the name "Siemens".

   (g) "System" means a combination of Hardware and Software where one cannot operate without the other.

   (h) "Territory" means the country in which Customer initially acquires the Hardware, whether through purchase or Lease, as indicated by Customer's address specified in the Order, unless expressly designated otherwise in the Order.

2. DELIVERY. Unless agreed otherwise in the applicable Purchase/Task Order, Hardware will be made available to Customer FCA at SISW's designated warehouse or factory for the relevant product (Incoterms 2020).

   Making the Hardware available to Customer in accordance with the Incoterms specified in this Section will constitute "Delivery" hereunder, regardless of SISW's further involvement in any transport arrangements for any Hardware after such Delivery.

   Notwithstanding any 'Incoterms' specified in this Section, unless expressly agreed otherwise with Customer in writing, SISW will (i) choose and appoint the carrier, freight forwarder or shipping service provider for delivery of the Hardware to Customer's designated place of final delivery, (ii) make the necessary arrangements for transportation with the selected carrier or shipping service provider in accordance with the specified Incoterms and (iii) charge the costs for shipment or carriage to Customer as specified in the Order.

3. RISK AND TRANSFER OF TITLE. Risk of loss and damage passes to Customer upon Delivery. Title to purchased Hardware transfers to Customer after payment in full has been received by SISW. If applicable law does not allow or recognize retention of title by SISW after delivery, title to purchased Hardware and risk of loss will pass to Customer upon Delivery, but SISW retains a security interest in the Hardware to secure payment of the purchase price of such Hardware.

4. WARRANTY.

4.1 Hardware Warranty Period. For purchased Siemens Hardware, SISW provides a limited product warranty for a period commencing on the date of Delivery and ending twelve (12) months after the first day of the month following the date of Delivery ("Warranty Period").

4.2 Scope. The contractor warrants that the items described hereunder will be free from material defects and operate substantially as described. For a period of sixty (60) days after acceptance, Contractor shall repair or replace all items that fail to conform to this express warranty. If a breach of this warranty cannot be remedied by repair or replacement, Contractor shall refund the fee associated with the non-conforming item. If such refunded Siemens Hardware was furnished as part of a System, SISW will also accept the return of the Software elements of the System and refund the fees for those Software licenses under the same conditions.

4.3 Third Party Hardware Warranty. Hardware that is not Siemens Hardware is delivered "AS IS" and is covered by the warranty offered by the manufacturer or third-party vendor, if any. To the extent permitted by the manufacturer or third-party vendor, SISW

assigns to Customer any applicable warranty rights to such Hardware, and SISW will use commercially reasonable efforts to provide information and assistance to enable Customer to make warranty claims against the manufacturer or third-party vendor for the Hardware. To the extent mandatory applicable law requires that SISW must provide warranty for the Hardware it has provided to Customer, the warranty provided by SISW is limited to the minimum warranties required by the applicable law and for the minimum term required by the applicable law.

4.4   No Correction Extension. The Warranty Period is not extended by the time required to correct or repair defects and malfunctions under warranty.

4.5   Warranty Exclusions. The warranty will not cover defects or malfunctions resulting from: (i) improper use or installation, misuse, improper site preparation, site or environmental conditions that do not conform to SISW's site specifications or to standards of care generally applicable to the type of Hardware, (ii) software, interfaces or hardware supplied by Customer or a third party, (iii) non-compliance with SISW`s specifications and instructions regarding the operation, care or storage of the Hardware, (iv) normal wear and tear which does not affect the functionality of the system (such as, but not limited to, cosmetic damage, scratches and dents), (v) neglect, accident, improper or inadequate maintenance or calibration, (vi) modifications, enhancements, repairs or unauthorized alterations made by anyone other than SISW or its authorized representatives, and (vii) exposure to water, fire or other hazards.

4.6   Refurbished Parts. SISW does not warrant that all Hardware or any part thereof furnished hereunder is new. Hardware may contain parts refurbished to an "as new" condition that meet all SISW quality specifications and are eligible for warranty and services.

5.   INTELLECTUAL PROPERTY RIGHTS AND TRADE SECRETS.

5.1   Firmware License. Under these Hardware Terms, SISW grants Customer a non-exclusive, non-transferable (except if transferred with the Hardware the Firmware is incorporated in) license to use the Firmware incorporated in the Hardware for the operation of the Hardware. The Firmware may only be used in connection with the Hardware in which it is incorporated. Any other use of the Firmware will be a material breach of the Agreement. Customer is prohibited from (a) decompiling, changing or modifying the Firmware or deriving other programs from the Firmware, and from (b) modifying or deleting property rights, copyrights or marks on the Firmware. The Software license and Software Maintenance Services terms set forth in the Agreement will not apply to Firmware.

5.2   Trade Secrets. Siemens Hardware Products are considered to be trade secrets of SISW. Customer (a) will not reverse engineer or disassemble the Hardware, or allow access to or use of Hardware by anyone except Authorized Users whose job performance requires access; (b) will take appropriate action to protect the confidentiality of Hardware; and (c) will not remove or obscure any notice or legend affixed to Hardware.

5.3   No Other Rights. The Firmware license in these Hardware Terms will not apply to any software other than Firmware installed on the Hardware or delivered in conjunction with or related to the Hardware furnished hereunder. No copyrights, patents, trademarks, trade secrets, or other intellectual property rights or rights to use confidential or proprietary information of SISW are granted to Customer under these Hardware Terms, unless explicitly stated otherwise herein or otherwise agreed in writing.

5.4   Survival. The provisions of this Section 5 survive termination or expiration of the Agreement.

6.   REPAIRS. If a defect or malfunction of Siemens Hardware occurs after the Warranty Period has expired or if such defect is for any reason not covered by the applicable warranty specified under Section 4 of these Hardware Terms or by a Warranty Extension or Support Service Pack ordered for the Siemens Hardware, Customer may request SISW to attempt to repair such defect or malfunction. However, repair services are not offered for all Siemens Hardware and, even if they are offered, SISW does not represent or warrant that all such defects can or will be repaired or that SISW will agree to perform such repair.   The parties will negotiate the cost for repairs or repair attempts prior to SISW attempting such repairs or repair attempts.

7.   HARDWARE LEASE TERMS. The terms and conditions of this Section 7 ("Hardware Lease Terms and Conditions") apply to any Lease of Hardware.

7.1   Lease. All Hardware Lease orders are subject to availability of the Hardware at the time of order and SISW reserves the right, at its sole discretion, to reject any Order for Hardware Lease.

Customer is granted a non-transferable, temporary, limited right to use the leased Hardware in the Territory. Any leased Hardware is limited to use by Authorized Hardware Users.

No title to or ownership of leased Hardware is transferred to Customer. Title to the leased Hardware will remain with SISW or third parties from whom SISW has obtained the right to rent out the Hardware.

7.2   Lease term and fees. The right to use the Hardware is limited to a period of time mutually agreed by SISW and Customer in the Order. Unless explicitly specified otherwise in the Order, the Lease term begins on the day of delivery of the leased Hardware to Customer. The Lease term is renewable by mutual agreement of the parties for an additional limited term or terms following expiration of the initial Lease term, to be agreed upon in a separate Order for this renewal. Upon expiration of the initial term or any renewal term, if applicable, or upon termination pursuant to these Hardware Terms or the Agreement or any specific Lease in accordance with Section 7.9 of these Hardware Terms, the right to use the Hardware will terminate and Customer must cease any further use of the leased Hardware thereafter and immediately return the leased Hardware to the originating SISW facility.

Lease fees are payable in advance, are non-refundable and will be invoiced as specified by the parties in the Schedule contract.

7.3   Condition of Hardware. Upon arrival of the leased Hardware at Customer's premises, Customer will examine the leased Hardware and declare that it has received all Hardware in secure and good working condition. Failure to object in writing to the condition of the leased Hardware within three (3) business days after receipt will be deemed conclusive that all of the leased Hardware was in working condition when delivered.

7.4   Customer Responsibilities and Prohibited Actions.

(a)   _Proper Use_. Customer will use the leased Hardware in a normal and customary way, for the purpose for which it is intended, in accordance with the Documentation for that Hardware. Customer will at all times (i) treat the leased Hardware with a reasonable level of care, (ii) ensure that it is kept clean and (iii) take all reasonable precautions to protect it from dust and other contaminants, subject to reasonable wear and tear. Customer warrants that its Authorized Hardware Users intending to use the leased Hardware have read the Documentation for that Hardware before using it and are familiar and experienced in the normal and safe operation of similar equipment as the leased Hardware.

(b)   _Prohibited Use of Rented Hardware_. It is expressly forbidden for Customer to cause or permit access or use of the Hardware by anyone other than an Authorized Hardware User.

(c)   _Transfer of Hardware_. Except as specifically provided in these Hardware Terms, Customer may not distribute, sublease, loan, rent, sell or otherwise transfer possession (whether by exchange, gift, operation of law or otherwise) of all or any portion of the leased Hardware to any other person without the prior written consent of SISW.

(d)   _Reverse Engineering or Modifying the Hardware_. Except as otherwise permitted by applicable law, Customer will not reverse engineer, disassemble, or otherwise attempt to discover the technology used in the Hardware. Customer may not otherwise modify, alter, adapt, embed or merge the Hardware.

(e)   _Location and Territory_. Customer may not use the Hardware outside of the Territory. Upon request from SISW, Customer will inform SISW of the exact location of the rented Hardware.

(f)   _Property Markings_. The rented Hardware may be tagged or marked to indicate that it is the property of SISW and Customer may not remove any such tags, plaques or marks.

(g)   _Encumbrance_. Customer may not pledge or encumber the leased Hardware in any way.

(h)   _Audit Right_. Consistent with all security measures of the ordering activity, SISW may, during regular business hours and upon reasonable advance notice, enter Customer's premises where the leased Hardware is stored or used to locate and inspect the state and condition of the rented Hardware and conduct an audit to determine Customer's compliance with these Hardware Terms.

7.5   Return of Hardware. Upon expiration or termination of the Lease, all leased Hardware must be returned in the same condition as it arrived at Customer's premises, except for normal wear and tear, but always in working condition. Hardware returned from Customer that is inoperative, damaged or with missing components will be repaired to original working order by SISW at Customer's expense.   The cost of any damage will be negotiated before Customer is billed for such damages.

7.6   Limited Warranty and Disclaimers. Unless expressly stated otherwise in the Order, the leased Hardware will be covered by a Warranty Extension Service Pack so the provisions of Section 4 apply to the Hardware for the entire duration of the Lease term.

7.7   Shipping and Freight Charges and Risk.   Any shipping charges will be negotiated and decided upon prior to such shipping.

7.8   Liability and Indemnity. Except for damage resulting from construction errors or improper functioning of the leased Hardware in breach of the express warranties made by SISW in Section 7.6 of these Hardware Terms, Customer is liable for all damage arising from use, misuse or negligence of the leased Hardware, including any accidents to persons or property. The provisions of this Section will survive the expiration or termination of the Agreement for any reason.

7.9   Termination and Recovery.   Termination of Federal contracts will be in accordance with FAR 52.212-4(l), FAR 52.212-4(m), and GSAR 552.238-73.

8.   LIMITATION OF LIABILITY AND INDEMNIFICATION. In addition to the limitation of liability provisions contained in the Agreement, the following applies with regard to the Hardware and any related services:

(a)   SISW will not be liable for: (i) any loss or damage partially or entirely caused by the failure to observe any and all instructions related to the Hardware or Service Pack provided by SISW; (ii) any loss or damage caused by Hardware which has been modified or maintained by other parties than SISW; or (iii) any loss or damage caused by data generated by the Hardware or the use thereof.

(b)

The provisions of this Section 8 will survive the expiration or termination of the Agreement.

Product Lifecycle Management Software
Supplemental Terms

These Product Lifecycle Management Software Supplemental Terms ("**PLM Terms**") amend the End User License Agreement ("**EULA**") between Customer, an Ordering Activity (an entity entitled to order under GSA Schedule contracts as defined in GSA Order ADM 4800.2I, as may be revised from time to time, and SISW solely with regard to the Products identified on the Order as PLM, PLM-TC, PLM-NX, or PLM-TCO ("**PLM Software**"). These PLM Terms, together with the EULA, Schedule contract, purchase/task order, and other applicable Supplemental Terms, form the agreement between the parties ("**Agreement**").

1. **DEFINITIONS.** Capitalized terms used herein have the meaning as defined elsewhere in the Agreement. The following additional definitions apply to these PLM Terms:

    (a) "**Authorized Agents**" means individuals who are working on Customer's premises and require access to PLM Software in support of Customer's internal business as Customer's consultants, agents, or contractors.

    (b) "**Authorized Users**" means Customer's employees or Authorized Agents.

    (c) "**Site**" means a single physical Customer location where the PLM Software is permitted to be used by Authorized Users.

    (d) "**Territory**" means the Site(s) or geographic area specified on the Order where Customer is licensed to install and use the PLM Software. If not specified on the Order nor elsewhere in the Agreement, the Territory shall be the country in which Customer has its principal place of business.

2. **LICENSE AND USE TYPES.** The following license and use types may be offered with respect to individual PLM Software product items. Additional license and use types may be specified with respect to certain Products as set forth in an Order. Each license may be used only by Authorized Users in the Territory and for the term as specified in the Order. Separate installations must be maintained for SISW software licensed with different Territory specifications.

2.1 "**Backup**" license means a license granted solely to support redundancy on Customer's backup or failsafe installations.

2.2 "**Floating**" **or** "**Concurrent User**" license means that access to the PLM Software, at any given moment is limited to the maximum number of Authorized Users indicated on the Order. Unless specified otherwise in the Order, it may be used only by a single Authorized User.

2.3 "**Named User**" license means that access to the PLM Software is restricted to named Authorized Users. Customer may re-assign a Named User license once per calendar month. Unless specified otherwise in the Order, it may be used only by a single Authorized User.

2.4 "**Node-Locked**" license means that the use of the PLM Software is restricted to a single workstation specified by Customer, and may include a hardware lock device or dongle to manage this restriction. Hardware lock devices or dongles are freely transportable to another workstation within the Territory without issuing a new license file.

2.5 "**Per Product**" license means that the use of the PLM Software is restricted to the number of third-party products to which the PLM Software is interfaced on a one-to-one basis.

2.6 "**Per Server**" license means that the use of the PLM Software is restricted to a single, specified server instance.

2.7 "**Perpetual**" or "**Extended**" license means a license of the PLM Software that extends indefinitely. Perpetual licenses do not include Maintenance Services.

2.8 "**Rental**" license means a license for a limited term of less than one year as identified in the Order. Maintenance Services for a Rental license are included in the Rental license fee.

2.9 "**Subscription**" means a license for a limited term as identified in an Order. Maintenance Services are included in the Subscription license fee. For multiple-year Subscription terms, SISW may require new license keys to be issued during the term.

2.10 "**Test/QA**" license means a license granted solely for the support of ongoing installation customization, support and testing, and may not be used in a production environment or for any other purpose.

3. **TERMS AND CONDITIONS FOR TOKENS.**

3.1 In combination with the license and use types specified above, Token license options may be offered with respect to certain PLM Software products. "**Token**" means a pre-paid credit unit which an Authorized User can temporarily convert into a license to access and use certain pre-defined software functionalities, applications and/or modules of the related PLM Software product designated on the Order. The specific functionalities, applications and modules that can be accessed and the quantity of Tokens required are described in the Documentation. A Token may be reused during its term.

3.2   Unless explicitly provided otherwise in the Documentation of the PLM Software product to which the Tokens pertain, Customer shall only be entitled to use Tokens if Customer has purchased a separate base license for that particular PLM Software product.

3.3   If additions, changes, or deletions are made to a PLM Software product which would result in new or updated functionality or applications and modules eligible for Token access, Customer will only be able to use Tokens to access such new or updated functionality, or applications and modules if both the corresponding base license for the PLM Software product and the applicable Tokens are covered by a current active Maintenance Services Order.

4.   OTHER PROVISIONS. Customer is authorized to use the Knowledge Fusion Product or any Application Programming Interface that is identified as published in the Documentation (collectively the "**APIs**") as part of the PLM Software licensed for Customer's internal business purposes only. Customer may not use the APIs to enable unauthorized use of the PLM Software. Customer may purchase a separate license to use certain published APIs to develop software for use solely in conjunction with the PLM Software. Customer is prohibited from reselling any software developed through the use of the APIs unless (a) Customer is separately authorized to do so as a member of an SISW solution partner program, or (b) Customer has purchased a license of Solid Edge or Femap which include APIs that Customer may use to develop software for Customer's internal use and for resale under terms and conditions at least as protective as this Agreement. Customer may not otherwise modify, adapt, or merge the PLM Software. SISW has no obligations or liability for software developed by Customer using the APIs. Customer is prohibited from using unpublished APIs under any circumstances.

Polarion Software
Supplemental Terms

These Polarion Software Supplemental Terms ("Polarion Terms") amend the End User License Agreement ("EULA") between Customer, an Ordering Activity (an entity entitled to order under GSA Schedule contracts as defined in GSA Order ADM 4800.2I, as may be revised from time to time, and SISW solely with regard to the Products identified on the Order Form as POLAR ("Polarion Software"). These Polarion Terms, together with the EULA, Schedule contract, purchase/task order, and other applicable Supplemental Terms, form the agreement between the parties ("Agreement").

1. **DEFINITIONS.** Capitalized terms used herein have the meaning as defined in the Agreement. The following additional definitions apply to these Polarion Terms:
   (a) "Authorized Agents" means Customer's consultants, agents and contractors who require access to SISW Technology in support of Customer's internal business.
   (b) "Authorized Users" means Customer's employees, Customer Affiliates' employees and Authorized Agents.
   (c) "Customer Affiliates" means companies that control, are controlled by, or are under common control with, the Customer. For purposes of this definition "control" is defined as the direct or indirect ownership of more than 50% of the voting securities of an affiliate.
   (d) "Territory" means the country in which Customer initially acquires and installs the Polarion Software.

2. **LICENSE TYPES.** The following license types may be offered with respect to individual Polarion Software products. Additional license types may be specified with respect to certain products as set forth in an Order Form. Each license may be used only by Authorized Users and for the term as specified in the Order Form.

2.1 "**Subscription**" means a license for a limited term as identified in an Order Form. Maintenance Services are included in the Subscription license fee. For multiple-year Subscription terms, SISW may require new license keys to be issued during the term.

2.2 "**Rental License**" means a license for a limited term of less than one year as identified in the Order Form. Maintenance Services for a Rental License are included in the Rental License fee.

2.3 "**Backup License**" means a license granted solely to support redundancy on Customer's backup or failsafe installations.

2.4 "**Concurrent User License**" means that the Software may be installed on one server at the site specified in the Order Form and that access to the Polarion Software at any given moment is limited to the maximum number of Authorized Users indicated on the Order Form.

2.5 "**Named User License**" means that the Software may be installed on one server at the site specified in the Order Form and access to the Polarion Software is restricted to named Authorized Users. Customer may re-assign a Named User License once per calendar month.

2.6 "**Perpetual License**" or "**Extended Term License**" means a license of the Software that extends indefinitely. Perpetual Licenses do not include Maintenance Services.

2.7 "**Per Server License**" means that the use of the Polarion Software is restricted to a single, specified server.

2.8 "**Test/QA License**" means a license granted solely for the support of ongoing installation customization, support and testing, and may not be used in a production environment or for any other purpose.

3. **WORLDWIDE USE RIGHTS.** Polarion Software will only be installed on a server located in the Territory. However, any license for Polarion Software allows Authorized Users to access and use the Polarion Software world-wide.

4. **AUTHORIZED USE OF APIs.** Customer is authorized to use the Software Development Kit or any Application Programming Interface that is identified as published in the Documentation (collectively the "APIs") as part of the Software licensed for Customer's internal business purposes only. Customer may use the APIs to develop software for use solely in conjunction with the Software. Customer may not use the APIs to enable unauthorized use of the Software and Customer may not otherwise modify, adapt, or merge the Software. SISW has no obligations or liability for software developed by Customer using the APIs. Customer is prohibited from using unpublished APIs under any circumstances.

Professional Services
Supplemental Terms

These Professional Services Supplemental Terms ("Professional Services Terms") amend the End User License Agreement ("EULA") between the Siemens entity named on the Order ("SISW") and the customer, an Ordering Activity (an entity entitled to order under GSA Schedule contracts as defined in GSA Order ADM 4800.2I, as may be revised from time to time, that accepted the Order ("Customer"), and apply solely with regard to Professional Services Products identified on the Order Form as "SERV" and to Professional Services performed pursuant to an SOW. These Professional Services Terms, together with the EULA, Schedule contract, purchase/task order, and all applicable Supplemental Terms, form the agreement between the parties ("Agreement"). Capitalized terms used herein have the meaning as defined in the Agreement.

1. **PROFESSIONAL SERVICES; CHANGE CONTROL PROCEDURE.** SISW will perform the Professional Services and produce the deliverables described in an SOW. SISW and Customer will follow a formal change control procedure with regard to any requested changes to the SOW. For revisions that will materially change the terms of the contract, the revised commercial supplier agreement must be incorporated into the contract using a bilateral modification.

2. **PERSONNEL.** SISW has sole discretion regarding the assignment of SISW personnel. SISW personnel performing Professional Services remain the employees of SISW, and SISW is responsible for all compensation and other employment benefits of such employees. SISW may use subcontractors to perform obligations under any applicable SOW provided that SISW will remain primarily liable to Customer for all Professional Services performed by SISW subcontractors. While SISW is providing Professional Services and for a period of 12 months thereafter, neither party will directly or indirectly solicit for employment or employ any employee of the other party, or any SISW subcontractor, actively involved in the performance, consumption or evaluation of the applicable Professional Services without the prior written consent of the other party. Notwithstanding the foregoing, this Agreement will not prohibit solicitation or employment that results from (i) any executive search or similar business used in the ordinary course of business and in a manner consistent with past practices of such business or (ii) advertising or other publications of general circulation.

3. **CUSTOMER RESPONSIBILITIES.** Customer will perform its obligations set forth in the applicable SOW. If SISW is required to perform the Professional Services at a Customer's location, Customer will make facility access, office space, and communication services available to SISW, consistent with all security measures of the Ordering Activity. Customer will ensure that SISW has the rights to use any third- party software or other third-party intellectual property made available to SISW by Customer as necessary for the performance of Professional Services. To the extent permitted by Federal Law, Customer will defend any claim brought against SISW to the extent that such claim is due to Customer's breach of the preceding sentence. Customer will bear the expense of defending such claim and pay any damages and attorneys' fees finally awarded or in settlement thereof, provided that SISW notifies Customer promptly in writing of the claim and allows Customer to direct the defense or settlement. Customer will not be responsible to pay any settlement made without Customer's consent. This section survives the expiration or termination of this Agreement.

4. **OWNERSHIP OF DELIVERABLES.**

4.1 **Pre-existing Software and Technology.** Each party will retain all rights in any software, ideas, concepts, know-how, development tools, techniques or any other proprietary material or information that it owned or developed prior to the inception of a Professional Services project, or acquired or developed thereafter without reference to or use of the intellectual property of the other party ("Pre-existing Material").

4.2 **Ownership of Deliverables.** Subject to Sections 4.3 and 4.4 below, SISW will own all intellectual property rights in or related to all deliverables that are developed and delivered by SISW under these Professional Services Terms. SISW also will own all intellectual property rights in or related to any know-how, techniques, concepts or ideas developed in the performance of the Services provided hereunder and related to SISW's Pre-existing Material.

4.3 **Deliverables Based on Customer's Software and Technology.** Subject to Section 4.4, Customer will own all intellectual property rights in or related to any deliverables developed hereunder to the extent that such deliverables consist of Customer's Pre-existing Material, works derived from Customer's Pre-existing Material, or modifications to Customer's Pre-existing Material.

4.4 **Third Party Software and Technology.** All software and technology that is licensed by a party from a third party vendor will be and remain the property of such vendor.

4.5 __License Grant for Deliverables Owned by SISW.__ SISW grants to Customer a perpetual, royalty-free, non-transferable and nonexclusive license to use the deliverables owned by SISW and provided to Customer under an SOW for Customer's internal business purposes. Unless otherwise specified in the applicable SOW, software deliverables will be in executable form, and Customer is authorized to load, execute, display, store and otherwise use the software for internal purposes.

4.6 __No "Work Made for Hire".__ The Services provided hereunder will not constitute "works made for hire" under any applicable copyright laws. SISW retains ownership of any work in progress under an SOW and will not deliver the same until Customer makes full payment in accordance with these Professional Services Terms.

4.7 __No License to Intellectual Property of the Other Party.__ Except as expressly provided in this Agreement, neither party grants the other party a license to any of its patents, copyrights, trade secrets or other intellectual property. SISW will be free to use the ideas, concepts, methodologies, processes and know-how developed in the course of performing the Professional Services (collectively "Know-how"), provided that such Know-how excludes Customer's Pre-existing Material.

5. **WARRANTY.** SISW warrants that the Professional Services will be performed in a professional and workmanlike manner. EXCEPT AS PROVIDED IN THIS SECTION 5, SISW MAKES NO OTHER WARRANTY, EXPRESS, IMPLIED OR STATUTORY, WITH RESPECT TO THE PROFESSIONAL SERVICES AND ALL SUCH WARRANTIES ARE HEREBY DISCLAIMED INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.   In the event of a breach of the foregoing warranty, the U.S, Government reserves all rights and remedies under the contract and the Contract Disputes Act, 41 USC 7101-7109

6. **CONTRACTING LEGAL ENTITY AND GOVERNING LAW.** Notwithstanding the terms of the Agreement, the performance of Professional Services represented in an SOW will be governed by Federal law.

SIEMENS

Simcenter Software
Supplemental Terms

These Simcenter Software Supplemental Terms ("Simcenter Terms") amend the End User License Agreement ("EULA") between Customer, an Ordering Activity (an entity entitled to order under GSA Schedule contracts as defined in GSA Order ADM 4800.2I, as may be revised from time to time, and SISW solely with regard to the Products identified on the Order as SIM-LMS, SIM-CDA and SIM-TASS ("Simcenter Software"). These Simcenter Terms, together with the EULA, Schedule contract, purchase/task order, and other applicable Supplemental Terms, form the agreement between the parties ("Agreement").

1. DEFINITIONS. Capitalized terms used herein have the meaning as defined elsewhere in the Agreement. The following additional definitions apply to these Simcenter Terms:

   (a) "Authorized Agents" means individuals who are working on Customer's premises and require access to Simcenter Software in support of Customer's internal business as Customer's consultants, agents, or contractors.

   (b) "Authorized Users" means Customer's employees or Authorized Agents.

   (c) "Core" means an independent specialized piece of integrated circuitry that reads or collects program instructions and executes them, regardless of its location in the computer hardware such as, but without being limited to, a central processing unit (CPU) or a graphics processing unit (GPU). CPU's and GPU's may contain one or more Cores.

   (d) "Session" means the usage of the Simcenter Software by an Authorized User for the enablement of a function available in the Simcenter Software.

   (e) "Site" means a single physical Customer location where the Simcenter Software is permitted to be used by Authorized Users.

   (f) "Territory" means the Site(s) or geographic area specified on the Order where Customer is licensed to install and use the Simcenter Software. If not specified on the Order nor elsewhere in the Agreement, the Territory shall be the country in which the Customer has its principal place of business.

2. SOFTWARE LICENSE AND USE TYPES. The following license and use types may be offered with respect to individual Simcenter Software. Additional license and use types may be specified with respect to certain Products as set forth on an Order. Each license may be used only by Authorized Users in the Territory and for the term as specified on the Order. Separate installations must be maintained for SISW software licensed with different Territory specifications.

2.1. "Backup" license means a license granted solely to support redundancy on Customer's backup or failsafe installations.

2.2. "Floating" or "Concurrent User" license means that access to the Simcenter Software at any given moment is limited to the maximum number of Authorized Users indicated on the Order. Unless specified otherwise in the Order, it may be used only by a single Authorized User.

2.3. "Named User" license means that access to the Simcenter Software is restricted to named Authorized Users. Customer may re-assign a Named User license once per calendar month. Unless specified otherwise in the Order, it may be used only by a single Authorized User.

2.4. "Node-Locked" license means that the use of the Simcenter Software is restricted to a single workstation and may include a hardware lock device or dongle to manage this restriction. Hardware lock devices or dongles are freely transportable to another workstation within the Territory without issuing a new license file.

2.5. "Per Product" license means that use of the Simcenter Software is restricted to the number of third-party products to which the Simcenter Software is interfaced on a one-to-one basis.

2.6. "Per Server" license means that use of the Simcenter Software is restricted to a single, specified server instance.

2.7. "Perpetual" or "Extended" license means a license that extends indefinitely. Perpetual license fees do not include Maintenance Services.

2.8. "Rental" license means a license for a limited term of less than one year as identified on the Order. Maintenance Services for a Rental license are included in the Rental license fee.

2.9. "Subscription" means a license for a limited term as identified on the Order. Maintenance Services are included in the Subscription license fee. For multiple-year Subscription terms, SISW may require new license keys to be issued during the term.

2.10. "Test/QA" license means a license granted solely for the support of ongoing installation customization, support and testing, and may not be used in a production environment or for any other purpose.

3. SOFTWARE LICENSE OPTIONS. In combination with the license and use types specified above, the following license options and features may be offered with respect to the Simcenter Software Products:

3.1. "HPC" means an option that allows a Serial Session to utilize one additional Core. Each additional Core requires another HPC.

3.2. "Power on Demand" or "POD" means a Power Session 12 month Subscription license that can be used for an unlimited number of Sessions for the number of hours purchased as specified on the Order. Total elapsed time of each Session is counted towards the hours purchased. Any unused hours are forfeited at the expiration of the 12 month Subscription license term.

3.3. "Power Session" means an option for an Authorized User to use the Simcenter Software for a single, consecutive Session on an unlimited number of Cores.

3.4. "Power Token" means an option that can be used to obtain the following: (i) a limited Serial Session to use the STAR-CCM+ Simcenter Software (excluding access to solvers) upon the redemption of ten Power Tokens; (ii) one HPC option upon the redemption of one Power Token; or (iii) a license to run one Session per Power Token provided that such Session is started through the Design Manager feature of STAR-CCM+ or HEEDS upon the redemption of one Power Token. A Power Token may be re-used during its term for any use delineated in (i), (ii) or (iii) above.

3.5. "Serial Session" means an option for an Authorized User to use the Simcenter Software for a single Session on a single Core.

3.6. "Token" means a pre-paid credit unit which an Authorized User can temporarily convert into a license to access and use certain pre-defined software functionalities, applications and/or modules of the related Simcenter Software product designated on the Order. The specific functionalities, applications and modules that can be accessed and the quantity of Tokens required are described in the Documentation. A Token may be reused during its term.

4. TERMS AND CONDITIONS FOR TOKENS. The following terms and conditions apply to the purchase of Tokens (but not Power Tokens):

4.1. Unless explicitly provided otherwise in the Documentation of the Simcenter Software product to which the Tokens pertain, Customer shall only be entitled to use Tokens if Customer has purchased a separate base license for that particular Simcenter Software product.

4.2. If additions, changes, or deletions are made to a Simcenter Software product which would result in new or updated functionality or applications and modules eligible for Token access, Customer will only be able to use Tokens to access such new or updated functionality, or applications and modules, if both the corresponding base license for the Simcenter Software product and the applicable Tokens are covered by a current active Maintenance Services Order.

5. USE OF API'S. If the Simcenter Software includes any Application Programming Interfaces that are identified as published in the Documentation (collectively the "APIs"), Customer may use such APIs to develop software for Customer's internal use. Customer may not use the APIs to enable unauthorized use of the Software. SISW has no obligations or liability for software developed by Customer using the APIs.

6. TERMS AND CONDITIONS APPLICABLE ONLY TO SIMCENTER CD-ADAPCO SOFTWARE. For Simcenter Software identified on the Order as SIM-CDA:

6.1. If not specified otherwise on the Order and to the extent the license is not specified to be "Multi-Site", the Territory shall be a single Site.

6.2. If the Order does not explicitly identify the Site(s), then the Territory is the address where the server is located on which the license management portion of the Simcenter Software is installed.

7. TERMS AND CONDITIONS APPLICABLE ONLY TO SIMCENTER TASS SOFTWARE. With respect to Simcenter Software identified on the Order as SIM-TASS, the software licensing system integrated in the Simcenter Software controls and limits the number of Cores that can be used simultaneously to make calculations with the Simcenter Software. Notwithstanding anything to the contrary in the Agreement, each single license for Simcenter Software is limited to use only a single Core, which means that simultaneous use of multiple Cores for a given calculation will require a corresponding number of licenses to Simcenter Software.
